

INSTRUCTIONS FOR ASSEMBLING TINY BOOKS:

Note- the cutting & creasing must be very accurate, or your book will be wonky!

1. Trim off all the edges along the solid lines, very carefully.

2. Fold in half lengthwise;
crease carefully,
then open out again.

3.

Fold in half across the page,
then fold each end up.
Crease carefully.

4. With sheet still folded in half,
cut carefully along heavy dotted line
(just one section, not all the way).

5. Fold in half lengthwise again.

6.

Push ends in
towards middle
to make a "star"
shape.

7.

Flatten the book down, turn the pages,
and check that all creases are sharp
and that the pages line up.
Finish with the cover at the top.

8. Fold the front back against the other pages,
and crease to make your book!
